

KrishiVishal Admin Portal

Complete Operations & User Manual

Complete Step-by-Step Guide for Every Module, Option & 1-Click Feature

DOCUMENT DATE:	02 September 2026	PLATFORM:	Web Admin ERP (Firebase)
LIVE URL:	https://krishivishal-a9ed7.web.app	TARGET ROLES:	SuperAdmin, Warehouse, Ops

Table of Contents / Index (7 Core Sections):

- 1. Dashboard & Orders Pipeline:** Executive KPIs, Order Lifecycle, Packing Station, CRM.
- 2. Supply Chain & Stock:** SKU Master (6-Segment), GRN Inward, Immutable Ledger, Procurement.
- 3. Catalog & 1-Click Upload:** Single-Page Auto-SKU Product Form, 1-Click Bulk Excel Importer.
- 4. Logistics & Fleet:** Rider Onboarding, Live GPS Tracking, Route Trips, Shift Attendance.
- 5. ERP, Tax & Finance:** Unit Economics (P&L), GSTR-1/3B Tax Filing, COD Cash Recon, Supplier Ledger.
- 6. Growth & Marketing:** Mobile Promo Banners, Push Notifications Broadcast.
- 7. AI & Governance:** AI Demand Control Room, Role-Based Access (RBAC), Immutable Audit Logs.

1. DASHBOARD & OPERATIONS

Executive Live Dashboard

Route: [/](#)

What It Does: Real-time overview of business KPIs: Today's revenue, active orders pipeline, low stock warnings, rider fleet status, and urgent support tickets.

How to Operate (Step-by-Step):

- View live Gross Revenue, Delivered Orders, and Active Orders count at the top.
- Use Quick Action buttons to immediately Add Products, Inward Goods (GRN), or Adjust Stock.
- Click on any order in the Recent Live Orders list to open full order details and process it.

Orders Pipeline & Processing

Route: [/orders](#)

What It Does: Manages full lifecycle of customer orders: Placed -> Confirmed -> Packed -> Out for Delivery -> Delivered.

How to Operate (Step-by-Step):

- Filter orders by Status: Pending, Confirmed, Packed, Out for Delivery, or Delivered.
- Click 'Confirm Order' to trigger Cloud Function FEFO inventory reservation.
- Click 'Mark Packed' once warehouse items are verified and packed.
- Assign an active Rider from the dropdown for dispatch.
- Delivery is completed when rider verifies the 4-digit OTP from the customer.

Packing Station & Barcode Verification

Route: [/packing-station](#)

What It Does: Dedicated touch UI for warehouse packers to verify correct items via barcode scanning and print dispatch slips.

How to Operate (Step-by-Step):

- Select an order from the Packing Queue or scan the invoice barcode.
- Scan each item's SKU barcode (system flashes green on match, red on mismatch).
- Click 'Print Packing Slip' to print customer label and hand over to logistics.

Customer Care, Support & CRM

Route: [/support-tickets](#) • [/crm-dashboard](#)

What It Does: Resolution of farmer complaints, returns, refund approvals, and tracking farmer credit profiles.

How to Operate (Step-by-Step):

- Open ticket to view complaint description, photos of damaged goods, and order history.
- Click 'Approve Return/Refund' to initiate automatic stock return restock and payment refund.

2. SUPPLY CHAIN, SKU & INVENTORY

SKU Master & Stock Dashboard

Route: </skus>

What It Does: Central master control of all 6-segment Agri SKUs (CC-III-VVV-GG-SSSUU-BBB), FEFO active batches, barcode mappings, and stock balances.

How to Operate (Step-by-Step):

- Search SKUs by Code, Product Name, or EAN-13 Barcode.
- Click row expand (v) to view active batches sorted by Expiry Date (FEFO priority).
- Click '+ Add SKU' to create a new master code with live code derivation.
- Click 'Adjust Stock' to perform Cloud Function-secured physical cycle count corrections.

Goods Receipt Note (GRN / Inward Invoicing)

Route: </grn>

What It Does: Records supplier deliveries (IFFCO, Bayer, etc.) into warehouse, creates batch documents, and updates authoritative stock.

How to Operate (Step-by-Step):

- Select Supplier and Purchase Order (PO).
- Enter received Batch Number, Mfg Date, Expiry Date, and Received Quantity.
- Upload supplier invoice document (PDF / Photo).
- Click 'Confirm & Record GRN' — Cloud Function automatically provisions batches and creates ledger records.

Stock Movements Journal (Immutable Ledger)

Route: </inventory-movements>

What It Does: Auditable, tamper-proof journal recording every single stock delta: Inward, Order Reserve, Dispatch, Return, Damage, Expiry.

How to Operate (Step-by-Step):

- Filter movements by type: PURCHASE_RECEIPT, ORDER_RESERVED, RETURN_IN, DAMAGE, ADJUSTMENT.
- Check 'Stock Delta' column to see exact before-and-after stock balance for any event.

3. CATALOG & 1-CLICK PRODUCT UPLOAD

1-Click Auto-Provisioning: Product name, category, and pack size automatically create the 6-segment SKU (CC-III-VVV-GG-SSSUU-BBB), HSN Code, GST% (5%/18%), and initial warehouse batch in one single step!

1-Click Product Master & Auto-SKU Form

Route: </products>

What It Does: Unified product catalog creation with automatic tax inference and instant multi-collection synchronization.

How to Operate (Step-by-Step):

- Click '+ Add New Product'.
- Enter Product Name (e.g. 'Urea 50kg Neem Coated'), select Brand ('IFFCO') and Category ('Fertilizers').
- Notice: HSN Code (31021010) and GST Rate (5%) auto-fill, and live SKU badge (FE-URE-GRN-00-050KG-IFF) generates.
- Enter MRP, Selling Price, Cost Price, and Initial Stock.
- Click 'Save Product' — Product doc, SKU Master record, and Initial Batch Ledger are all created simultaneously in 1 click!

1-Click Bulk Excel / CSV Importer

Route: </products> (Bulk Operations)

What It Does: Upload hundreds of products from a single spreadsheet with automatic SKU generation.

How to Operate (Step-by-Step):

- Click '■ Template' to download the ready-to-use pre-formatted Excel template.
- Fill in Product Name, Brand, Category, Pack Size, Unit, MRP, Price, and Stock.
- Drag & drop the Excel file into the upload box.
- Review parsed rows and click 'Initialize Bulk Sync' — all products, SKUs, and inventory sync in seconds.

Categories, Brands, Crops & Master Data Codes

Route: </categories> • </brands> • </crops> • </master-data>

What It Does: App taxonomy hierarchy, crop-disease tagging, and 2-letter/3-letter master code dictionaries.

How to Operate (Step-by-Step):

- Manage Categories & Subcategories with display orders and icons.
- Manage Brands directory and official manufacturer logos.
- Tag Products with specific Crops (Paddy, Wheat, Sugarcane) so farmers easily find them.

4. LOGISTICS & FLEET MANAGEMENT

Riders Management & KYC Verification

Route: </riders>

What It Does: Delivery agent onboarding, Aadhaar/DL verification, bank account details, and vehicle status.

How to Operate (Step-by-Step):

- Click '+ Add Rider', enter mobile number, full name, assigned warehouse hub.
- Upload KYC documents and approve profile for order assignment.

Live GPS Tracking & Route Trips

Route: </tracking> • </trips>

What It Does: Map-based real-time tracking of on-duty delivery agents and multi-order batching trips.

How to Operate (Step-by-Step):

- View live map markers of all riders currently delivering parcels.
- Use Trips tab to cluster deliveries in the same village/panchayat to save transit time.

Rider Performance, Attendance & SOS Emergency

Route: </rider-performance>
• </attendance> • </sos>

What It Does: Performance scoring, on-time delivery rates, daily shift clock-in, and emergency distress alerts.

How to Operate (Step-by-Step):

- Track daily delivery completion metrics and customer ratings per rider.
- Monitor SOS alerts for immediate roadside or technical assistance.

5. ERP, TAX & FINANCE

Unit Economics (P&L; per Order)

Route: </unit-economics>

What It Does: Micro-level margin analysis per delivered order: Selling Price - Landing Cost - Delivery Cost - Packaging = Net Profit.

How to Operate (Step-by-Step):

- Check Gross Margin % and Net Margin % across categories and product lines.

GST & Tax Filing Reports (GSTR-1 / GSTR-3B)

Route: </gst-reports>

What It Does: CA-ready monthly GST export with HSN-wise tax breakdown (0%, 5%, 12%, 18%).

How to Operate (Step-by-Step):

- Select filing month (e.g. August 2026).
- Click 'Export GSTR-1 Excel' to download government-compliant filing sheets.

Rider Payouts & COD Cash Reconciliation

Route: </payouts> • </reconciliation>

What It Does: Weekly delivery earnings disbursement and Cash-on-Delivery physical cash settlement.

How to Operate (Step-by-Step):

- Calculate per-order commission and trigger bank transfer exports.
- Reconcile daily cash collected by riders against warehouse counter receipts.

6. GROWTH & MARKETING • 7. INTELLIGENCE & SECURITY

Home Screen Banners & Push Notifications

Route: </banners> • </notifications>

What It Does: Seasonal discount banners (Kharif/Rabi campaigns) and instant broadcast notifications to farmers.

How to Operate (Step-by-Step):

- Upload 1200x600 px banner, link to specific product or category, and click Publish.
- Send broadcast notifications with weather advisories or flash sales.

AI Demand Control Room & Supervisor

Route: </ai-control>

What It Does: Machine learning demand forecasting based on weather, pest alerts, and crop seasonality.

How to Operate (Step-by-Step):

- View 15-day stock demand forecasts to prevent stockouts during peak sowing seasons.

Role-Based Access (RBAC), Audit Logs & Global Settings

Route: </staff> • </audit-logs> • </settings>

What It Does: Warehouse employee access control, immutable security audit logs, and global ERP configuration.

How to Operate (Step-by-Step):

- Assign roles: SuperAdmin (full), OrderManager (orders/riders), CatalogManager (products/SKU), Viewer (read-only).
- Audit Logs record exact timestamp and admin email for every create/update/delete operation.
- Settings manage warehouse address, delivery radius, support numbers, and business policies.

Appendix: Standard 6-Segment Agri SKU Architecture Reference

Segment	Meaning	Example	Standard Codes
CC	Category (2 Char)	FE, PE, SE, EQ	FE=Fertilizer, PE=Pesticide, SE=Seeds, EQ=Equipment
III	Item (3 Char)	URE, DAP, COR	URE=Urea, DAP=Di-Ammonium Phosphate, COR=Coragen
VVV	Variety (3 Char)	GRN, HYB, STD	GRN=Granular, HYB=Hybrid, STD=Standard
GG	Grade (2 Char)	46, A1, 00	46=46% Nitrogen, A1=Premium Grade
SSSUU	Pack Size + Unit (5 Char)	050KG, 500ML	050+KG=50 Kilogram, 500+ML=500 Millilitre
BBB	Brand (3 Char)	IFF, BAY, FMC	IFF=IFFCO, BAY=Bayer, FMC=FMC Chemicals
